Images must be in JPEG, PNG or GIF format. The resolution should be the original size, if possible, but at least 540 x 430. You should upload three images.

Step 1: select audit type

Audit type:

Step 2: select the

- NT scan
- Nasal bone**
- Ductus venosus
- Tricuspid flow
- Facial angle
- Uterine Doppler (PET)

Select **three** images of the fetus and the calliper placement.

Add an image file:

Step 3: add a data file

Here you can upload a data file containing NT measurements. A good distribution of measurements is a condition for being included on the

Fourth: Click on Browse and select your 3 nasal bone images, one at a time. **If you do NOT have an absent nasal bone image, upload 3 normal ones but you MUST e-mail NaomiHG@fetalmedicine.com and state that you have uploaded only normal nasal bone images.**
